

Name: Debbi and Howard

Feedback on Narelle for other home and pet owners: Narelle was a breath of fresh air while she looked after our Bearded Collie, Dibley, and shared the care of Yet, the cat, with our lodgers. I'm sure it's the first time she's had to look after someone's pets while living in a houseful of other people but both she and 'the houseful' got on well. I returned to find the dog had been groomed much better than I ever manage and I received frequent photos from Narelle of Dibley enjoying herself in the park. The house was clean and well organised on our return from a month away, which isn't always the case when I'm at home! For her positive spirit, friendliness and, most importantly, love of the animals in her care, I cannot recommend her highly enough. In addition, one of Narelle's most endearing traits was the appreciation she showed for my great city of London!

Where did Narelle house sit for you?: Brixton, SW London

When did Narelle house sit for you?: mid February to mid March 2020
